PREFACE.

After a lapse of three years, the nineteenth number of the Lowell Directory is now presented to the citizens.

Although it is a time of unprecedented depression of business, such as has never before been known in Lowell—and therefore unfavorable in that respect for the publication of the work—the length of time since the last number was published, and the great number of changes which have taken place, render it doubly necessary to the community.

The publishers, in view of the circumstances, have made an increased effort to make this number as useful and interesting as possible.

Almost eleven pages are filled with general events of the years 1855 and 1856; and an account is given of the dedication of the new Chime of Bells, with the inscription on each, which will be interesting to preserve, in connection with the Directory, making it valuable in families, as well as for business purposes.

THE CHIME OF BELLS.

Early in the year 1856 efforts were commenced to procure a chime of bells, to be placed in the tower of St. Anne's church, and, by the united donations of associations and individuals, over \$4000 was raised, and on the morning of the 17th of October, 1857, the bells were suspended in the place assigned for them. At a quarter before 10 o'clock, A. M., they commenced sending forth their melodious peals, which vibrated through the musical nerves of thousands of the citizens of Lowell and vicinity assembled on the occasion.

The following extracts from the *Lowell Journal and Courier*, of that evening, will continue to be interesting to the community, to all future times.

FIRST RINGING OF THE CHIME OF BELLS.

This event, so long and anxiously looked forward to, took place this morning at St. Anne's church. Long before the appointed hour for

commencing services, the house was filled with those who had gathered to participate in this interesting occasion.

At quarter before ten, the bells began ringing the changes, being played in most artistic style by Mr. James Harrison, who came with them from Troy. The Mayor and Aldermen came in in procession, preceded by the City Marshal, and led by the Wardens to their appointed seats before the chancel. The Vestry followed in order with the committee on the chime, Mr. Hitchcock, of Troy, and others specially invited. Morning prayer was then said by Rev. Dr. Edson, the rector. The Venite Te Deum was performed by a full choir and the organ. The 150th Psalm of the Psalter was also chanted by the choir, with the Gloria in Excelsis. An address and resolutions were then read by Dr. J. O. Green, the Junior Warden.

The names, weight, and inscriptions of the several bells are as follows:

E_b — 2271 lbs. HEDRICK BELL.

From the Tower of St. Anne's
we praise thee, O God! and celebrate thy blessing
on the generous endeavors of Geo. Hedrick, Esq.,
and other citizens and friends, whereby we were placed
here to ring thy praise.
Gloria Filio Spirituo.

Lowell, A. D. 1857.

Omnibus que presunt sequimur.

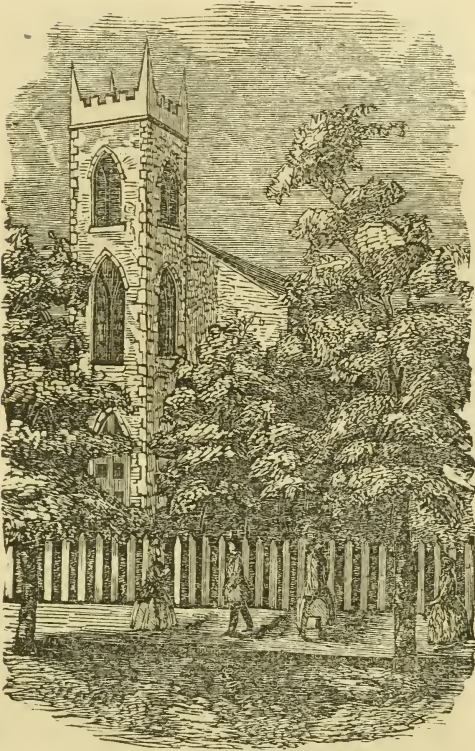

Total weight of the chime, 9,899 lbs.

Next followed a very appropriate and beautiful address by Rev. J. L. Jenkins, pastor of the First Congregational church in this city.

The verse "Praise God, all creatures here below" was then sung to the tune of Old Hundred, accompanied by the bells, without the organ, by the choir and whole congregation, after which followed the Benediction.

After the services in the church, Mr. Harrison, of Troy, continued playing the chimes in a great variety of tunes. The novelty attracted crowds of our fellow citizens, and there seemed to be but one opinion, that these bells would prove one of the most attractive ornaments to the city.

The occasion was one of great interest, and the manner in which all was managed reflects great credit on all concerned.

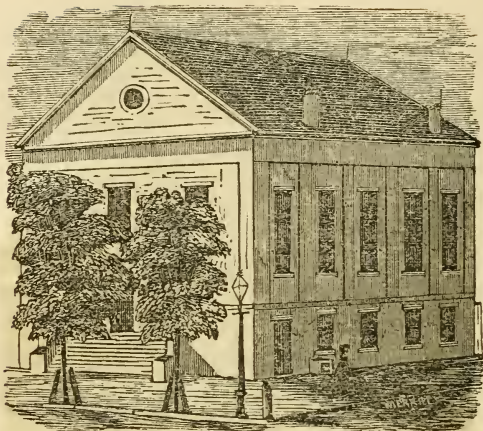

ST. ANNE'S CHURCH,

(EPISCOPAL,)

Is situated on Merrimac Street, between Anne and Kirk Streets. A parish was organized in February 26, 1824, a place of worship provided, and divine service was performed for the first time in what is now known as Lowell, on Sunday, March 7, 1824, by Rev. Theodore Edson, D. D., its first and only Rector to the present day. Its first Wardens were Allan Pollock and Warren Culburn.

Rev Theodore Edson, D.D., *Rector*. J. H. B. Ayer, John O. Green, *Wardens*. Elisha Huntington, Dennis Fay, James S. Russell, William A. Burke, B. C. Sargéant, *Vestrymen*. Charles Hovey, *Treasurer*. O. E. Cushing, *Clerk*.

Their Meeting-house was erected in 1839, at an expense of \$20,000, and was dedicated in January, 1840. Rev. S. W. Hanks was ordained March 20, 1840, and dismissed February 3, 1853; on the same day Rev. E. B. Foster was installed over the John Street Church, and is its Pastor at the present time.

FIRST BAPTIST CHURCH.

Church Street.

THIS house was erected in 1826, and dedicated November 15th of the same year. The structure has been remodelled and enlarged, and is now 84 feet long and 58 feet wide, capable of seating about 1100 persons. The tower is furnished with a fine-toned bell and the choir with an organ. The house is finely located, on the corner of Church and George Streets, on a lot of land containing 10,300 square feet, given for the purpose by Mr. Thomas Hurd.

The church was constituted in 1826, and was publicly recognized February 8th of that year. The original number of members was 23; the present number is 840. There have been six pastors, viz:—

John Cookson, installed Nov. 15, 1826; dismissed Aug. 5, 1827.

Enoch W. Freeman, installed June 4, 1828; died Sept. 1835.

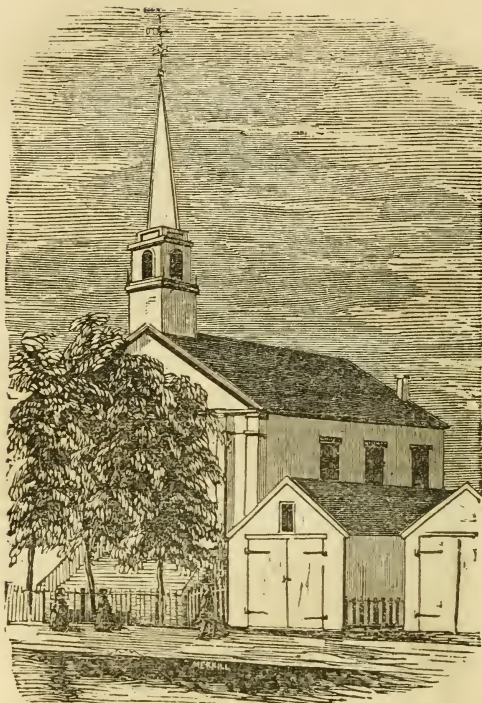

Joseph W. Eaton, ordained Feb. 24, 1836; dismissed Feb. 1, 1837.

FREE CHAPEL.

Middlesex Street.

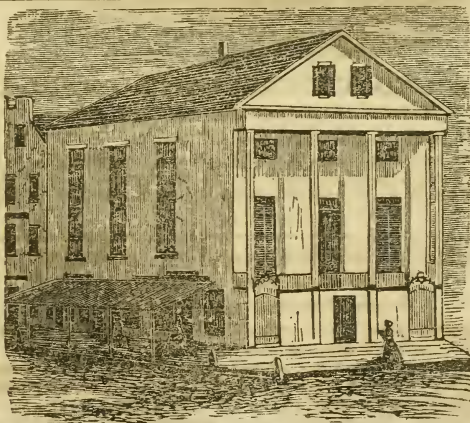

THE Chapel building was erected by the Hamilton and Appleton Corporations to afford school-rooms to the inhabitants of this section of the city on its first settlement. The second story has been occupied since August, 1844, by the Lowell Missionary Society, who established in it a worship which should be freely open to all persons; which should be in no sense sectarian; which should seek to draw to itself the neglected, the erring, and the wandering young. In October of that year the Rev. Horatio Wood was invited to become the Minister of the Chapel, with the designation of Minister at Large. It was to be his special duty to seek out and minister, daily, to the temporal and spiritual wants of the poor of the city. In 1846, the second and basement stories of the building began to be used for the intended operations of the ministry. The additional rooms are occupied for an office of business and consultation, a clothes room in which are collected and arranged every article of wear and comfort for distribution among the needy, and a sewing school for children and adults. Free Evening Schools were started in 1845, and conducted by the Minister at Large. Established by the city in 1855. Rev. H. Wood was from the beginning, and is still, Superintendent of two schools: one at the Free Chapel on Middlesex street; the other at Suffolk Hall on Suffolk street. Kept in the winter season, two evenings each, per week. Teaching voluntary. Number of teachers 50; scholars, about 1000. From \$400 to \$800 are given annually to the poor, in fuel, groceries, clothing, &c., &c. The charity is intelligent, inquiring and systematic. Its plans of usefulness have been various and successful. The Institution has been well sustained by the citizens generally, and the united manufacturing corporations of the city.

CHURCH OF THE FIRST UNITARIAN SOCIETY.

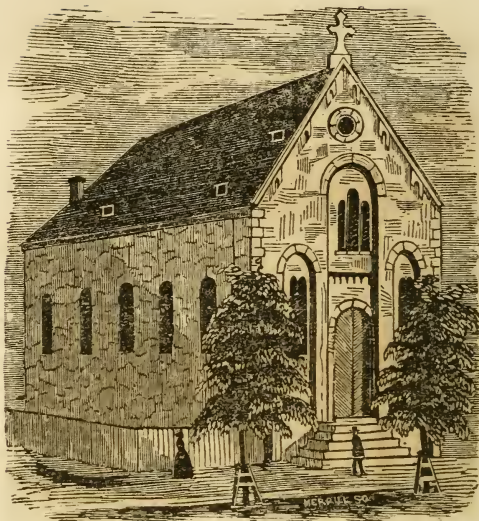

Merrimac Street.

THIS building, containing five stores in the first story, was erected in 1832, at a cost of \$32,000.

The church is capable of holding about 900 persons; is neatly and tastefully finished inside; has an organ costing \$1,800; a free Parish Library, of about 3,000 volumes, mostly of standard works; and has, separated from it by the court, a vestry, costing \$3,500, all of which are owned by the society, without any incumbrance.

Rev. William Barry was the first Pastor for five years, ending 1836. Rev. Henry A. Miles, the second Pastor, from 1836 to 1853. Rev. Theodore Tebbets, the third Pastor, from 1855 to 1856. Rev. Frederic Hinckley, the fourth and present Pastor, installed October, 1856.

PROTECTION AGAINST FIRE AND WATER.

PATENT IMPROVED

MASTIC ROOFING,

PATENTED FEBRUARY 12, 1856,

Was awarded the first Prize and Diploma at the Albany County Fair, the fall of 1856. Also, a Diploma at the Middlesex Mechanic Association, at Lowell, 1857.

I put it on over Boards, Plank, Tin, Shingles, Steep or Flat Roofs.

The subscriber is now offering to the citizens of Lowell and vicinity, the Improved Mastic Roofing, which, in view of its low cost, easy application, great durability and perfect adaptation to any climate, from its expansion and contraction by heat and cold, unquestionably far excels any other roofing ever used, tin and slate not excepted. It can be readily applied to roofs of every description, either steep or flat, and is superior to anything ever before discovered for Steamboats, Railroad Cars, Foundries, &c., &c. It may be put over old shingles without removing them. This Cement applied to old tin roofs not only renders them impervious to water, but effectually prevents rust, thus rendering it superior to all other preparations as a covering for leaky metallic roofs.

U. S. AND FOREIGN PATENT AGENCY,

Room, No. 11 Webster Bank Building,
No. 13 EXCHANGE STREET,
BOSTON.

SAMUEL COOPER,

Late Chief Examiner in the U. S. Patent Office,

PROCURES PATENTS IN THIS AND FOREIGN COUNTRIES.

His long official connection with the Patent Office has rendered him familiar with its rules and practice, and with the history of invention in this and other countries; and this experience, with the frequent visits which he proposes making to the Patent Office, justifies him in saying that his Agency will offer to inventors all the advantages of one located in Washington, and, in addition, those which result from a residence in the midst of mechanical and manufacturing industry.

Advice given upon all matters relating to the validity, &c., of patents, the novelty and patentability of inventions. Specifications and drawings prepared, — Caveats filed, — Reconsiderations procured of applications that have been rejected upon imperfectly prepared papers, — Cases of interference, and applications for extension and re-issue prosecuted, — and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured, through prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonial:

From Hon. Chas. Mason, Commissioner of Patents.

U. S. PATENT OFFICE, FEBRUARY 28, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, SAMUEL COOPER, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the Office; a close attention to the interests of his clients, and a marked candor and courtesy that have rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this Office with whom I am acquainted.

PALMER'S ARTIFICIAL LEG.

This world renowned Invention still retains its high position. It is worn by upwards of 3000 individuals in the United States and Europe, with *astonishing success*. At the World's Fair, in London, the award of the GREAT PRIZE MEDAL was unanimously conferred by the Royal Committee, *over thirty-five competitors*. The "Palmer Leg" is an exact fac-simile of the natural leg, and with it, the patient is enabled to *walk immediately* upon its application, with *astonishing ease*. The leg is applied to the shortest and tenderest stump with entire success. The Palmer leg is *stronger, lighter, and more durable* than any Artificial Leg made. Wherever it is exhibited, a *first class* Medal is awarded. At the late Fair of the American Institute, 1857, New York, the following award was given by the Judges:—

Best Artificial Leg. Palmer's Artificial Leg still retains *its superiority over all others*. Gold Medal, Certificate, and Diploma awarded.

D. M. REESE, M. D., Prof. I. M. Carnochan, M. D., Prof. H. G. Cox, M. D., Judges American Institute, twenty-ninth annual Fair, 1857.

The Judges at the late Mechanics' Fair, at Lowell, also awarded the *only* Gold Medal, to Palmer's Leg.

Pamphlets giving full information, sent *gratis* to every applicant. General Offices for New England States and New York, 19 GREEN STREET, BOSTON, and 378 BROADWAY, NEW YORK. Address,

## WHEELER & WILSON'S MEDAL FAMILY SEWING MACHINE.

The unanimous favor which has attended the introduction of Wheeler & Wilson's FAMILY SEWING MACHINE, is sufficient evidence of its excellence. It is needless now to say, that this useful instrument is becoming a domestic institution; the fact is recognized by its successful use in thousands of Families in every rank of life. To those who have hitherto refrained from availing themselves of its advantages it may not be amiss to say, that its utility is not a problem to be solved, but a success already realized. The highest testimony is constantly offered, confirming this verdict, which has given this instrument so wide and so enviable a reputation.

This Machine is conceived on a principle ENTIRELY ORIGINAL, being specially and admirably adapted to the most perfect work on every kind of material; and having been subjected to a three years' test of the most searching character, by Families and in various branches of manufacture, with distinguished success, it is believed that in all the great points requisite to a complete and practical Sewing Machine, it cannot be approached in excellence.

Among the undoubted advantages it possesses over all others, may be named the following:—

1st. Its simplicity of construction, and consequent freedom from derangement and need of repairs.

2d. Its unexampled rapidity and ease of operation.

3d. Its noiseless movement.

4th. The great variety of purposes to which it can be applied, which can be achieved by no other mechanical means. And

5th. The pre-eminent BEAUTY and DURABILITY of the work.

This Machine, in a variety of styles and sizes, is in operation and for sale at the office and wareroom,

228 Washington St., corner Summer, Boston.

### WORTHY OF CONSIDERATION.

It is a fact well known to every observer, that the remedies of each of the exclusive systems of Medical Practice have been peculiarly successful and unsuccessful in various diseases, under various circumstances; it would therefore appear probable to every reflecting mind that a physician who has acquainted himself with all systems of practice, is best prepared to treat successfully the varied forms and conditions of disease. The undersigned was ten years investigating the principal systems of medicine, heard lectures at six different Medical Colleges, attended a course, and received the degree of Doctor of Medicine from the College of Philadelphia, where all the principal systems of medicine are taught. He is now seen in practice on the above comprehensive system, about three years, rejecting only those remedies which are productive of more lasting injury than present good, and rich with such valuable resources as are necessary, and he wishes the testimony of his patients to decide as to the success and merit of his practice, when compared with all others they have tested or seen.
